*For 2022 and 2021, the ABA did not collect information about "graduates who took the bar exam before graduation" and "graduates who took the bar exam after graduation" as it does currently, so those data fields are not included in this report.

**Law School pass rate is how the Law School's graduates performed across all jurisdictions where they took the bar examination for the first time.

***The ABA weighted average bar pass rate is the average pass rate for graduates from ABA-accredited law schools for each jurisdiction in which the Law School's graduates sat for the bar exam. This number is weighted so that bar pass rates from jurisdictions where more of the Law School's graduates sat for the bar exam have a greater impact on the ABA weighted average bar pass rate than bar pass rates from jurisdictions where fewer of the Law School's graduates sat for the bar exam.

****The difference between the Law School pass rate and the ABA weighted average bar pass rate compares the performance of the Law School's graduates on the bar exam in all jurisdictions where they took the bar exam for the first time with the performance of graduates from all ABA-accredited law schools on the bar exam in those same jurisdictions.
